About the Doctor

Dr. Emre specializes in plastic, reconstructive and aesthetic surgery. His comprehensive medical education, knowledge across two specialties and international professional training have shaped his surgical approach.

Dr. Emre graduated first in his class from Bursa Uludağ University Faculty of Medicine in 2013. He completed his first specialization in Ophthalmology at Haydarpaşa Numune Training and Research Hospital. He later completed his specialization in Plastic, Reconstructive and Aesthetic Surgery at Istanbul University, Istanbul Faculty of Medicine, receiving his second specialist qualification in 2023.

His knowledge and experience in two specialties strengthen his approach to facial anatomy, eye area aesthetics, facial rejuvenation and delicate surgical procedures.

Face and neck rejuvenation, rhinoplasty, breast aesthetic surgery and body contouring are among Dr. Emre's main clinical interests. His approach to aesthetic surgery is to preserve the patient's natural anatomy and pursue balanced, personalized results in harmony with facial and body proportions.

To further develop his knowledge and experience in advanced facial surgery, Dr. Emre attended Michele Pascali Facial Surgery Fellowship programs in Rome, Italy, as well as advanced facial anatomy and cadaveric surgery training in Verona.
